

Name of the Applicant: \_\_\_\_\_

General Surgery	No. of Procedures Performed	Privileges Applied by Applicant	Privileges Granted by CUHKMC
<b>(A) Core Privileges</b> 1. Excision of skin and subcutaneous lesions without reconstruction 2. Insertion and management of chest tubes 3. Open groin hernia repair 4. Varicose vein operations confining to ligation and stripping and injection sclerotherapy 5. Appendicectomy 6. Cholecystectomy 7. Simple bowel resection and anastomosis 8. Haemorrhoidectomy (conventional excision) and other office treatment for haemorrhoids 9. Surgery for simple anorectal fistula/abscess 10. Thyroidectomy for small (<80grams) benign nodular goiter or nodule 11. Mastectomy 12. Paracentesis 13. Ventilator Management 14. Endotracheal Intubation 15. Arterial Catheter Insertion and Management 16. TPN Management 17. Central Venous Lines Insertion 18. Tube Thoracostomy 19. Pleurocentesis 20. Circumcision			
<b>(B) Special Privileges</b> <b>Breast Surgery</b> 21. Sentinel LN surgery 22. Oncoplastic surgery 23. Breast reconstruction after mastectomy 24. Wire guided surgery 25. Microdochectomy 26. Mammotome Procedures 27. Reduction mammoplasty <b>Colorectal Surgery</b> 28. Surgery for complex anorectal fistula, including rectovaginal fistula 29. Stapled haemorrhoidopexy 30. Surgery for rectal prolapse 31. Rectal resection for cancer / neoplasm, including local excision 32. Laparoscopic colon surgery 33. Laparoscopic rectal surgery for benign and malignant disease 34. Exenterative surgery 35. Transanal endoscopic microsurgery / Transanal endoscopic operation 36. Laparoscopic enterolysis 37. Peritonectomy 38. Hyperthermic Intraperitoneal Chemotherapy (HIPEC) 39. Robotic assisted colorectal surgery 40. Laparoscopic incisional and groin hernia repair 41. Transanal Total Mesorectal Excision (TATME) <b>Endocrine Surgery</b> 42. Re-operative thyroid surgery 43. Thyroidectomy for large (>80grams) retrosternal goiter or Graves's disease 44. Thyroidectomy for thyroid cancer that necessitates a concomitant neck dissection 45. Thyroidectomy for locally advanced thyroid cancer 46. Central and/or lateral neck dissection for recurrent thyroid cancer 47. Parathyroid surgery for primary or renal hyperparathyroidism 48. Minimally invasive thyroid surgery 49. Robotic-assisted thyroid surgery 50. Radiofrequency Ablation (RFA) for Thyroid Nodules 51. Open adrenalectomy 52. Laparoscopic adrenalectomy 53. Robotic-assisted adrenalectomy			

General Surgery	No. of Procedures Performed	Privileges Applied by Applicant	Privileges Granted by CUHKMC
54. Pancreatic surgery for neuroendocrine tumor			
55. Laparoscopic pancreatic surgery for neuroendocrine tumor			
<b>Head and Neck Surgery</b>			
56. Reconstruction of major defects of the head and neck region, involving the use of regional flaps and microvascular free flaps			
57. Resection of benign and malignant pathology in the head and neck region (including parotid pathology, tumor in the nasal cavity, nasopharynx, oral cavity, oropharynx, larynx, hypopharynx, skull base, paranasal sinuses and parapharyngeal space), with or without the need for lymph node dissection and reconstruction			
<b>Hepatobiliary and pancreatic surgery and liver transplantation</b>			
58. Major liver resection			
59. Shunt operation for portal hypertension			
60. Bile duct surgery except simple bile duct exploration			
61. Pancreatic resection including Whipple's operation			
62. Laparoscopic pancreatic surgery			
63. Laparoscopic liver resection and other liver surgery			
64. Laparoscopic splenectomy			
65. Laparoscopic bile duct procedures			
66. Robotic hepatobiliary and pancreatic surgery			
67. RFA and other energy treatment for liver tumor			
68. Living donor hepatectomy			
69. Liver transplantation			
70. Procurement of deceased donor liver			
<b>Upper Gastrointestinal and Esophageal Surgery</b>			
71. Gastrectomy (open)			
72. Open surgery for GERD			
73. Laparoscopic gastrectomy			
74. Laparoscopic surgery for reflux			
75. Laparoscopic and open bariatric surgery			
76. Open esophagectomy			
77. Minimally invasive esophagectomy			
78. Open surgery and MIS for benign and/or functional esophageal diseases			
79. Robotic assisted upper GI surgery			
<b>Vascular Surgery</b>			
80. Arterial Surgery: Extremities <ul style="list-style-type: none"> <li>•Infra-inguinal arterial bypasses: Femoro-popliteal and femoro-distal bypasses</li> <li>•Extra-anatomical bypasses: Femoro-femoral and axillo-femoral bypasses</li> <li>•Femoro/popliteal endarterectomy, thrombectomy and embolectomy</li> <li>•Upper limb artery embolectomy / thrombectomy</li> </ul>			
81. Arterial Surgery: Abdominal Aorta (Simple) <ul style="list-style-type: none"> <li>•Open repair of infrarenal aortic aneurysms / iliac aneurysms</li> <li>•Aorto-iliac / aorto-femoral bypasses</li> </ul>			
82. Arterial Surgery: Abdominal Aorta and Visceral (Complex) <ul style="list-style-type: none"> <li>•Open repair of juxtarenal / pararenal aorta with reconstruction</li> <li>•Visceral (Celiac, SMA, renal artery) artery bypasses and reconstruction</li> </ul>			
83. Arterial Surgery: Thoracic / Thoraco-Abdominal <ul style="list-style-type: none"> <li>•Open repair of thoraco-abdominal aorta with reconstruction</li> </ul>			
84. Arterial Surgery: Cerebrovascular <ul style="list-style-type: none"> <li>•Carotid endarterectomy Extracranial carotid / subclavian bypasses</li> </ul>			
85. Endovascular Surgery: Extremities <ul style="list-style-type: none"> <li>•Angioplasty and stenting of lower limb arteries</li> <li>•Angioplasty and stenting of upper limb arteries</li> <li>•Intra-arterial thrombolysis</li> <li>•Lower limb atherectomy</li> </ul>			
86. Endovascular Surgery: Abdominal Aorta <ul style="list-style-type: none"> <li>•Endovascular repair of infrarenal abdominal aortic aneurysms</li> <li>•Endovascular repair of iliac aneurysms</li> <li>•Embolization of iliac arteries</li> </ul>			
87. Endovascular Surgery: Complex Aorta <ul style="list-style-type: none"> <li>•Endovascular repair of suprarenal abdominal aortic aneurysms (EVAR) with the use of fenestrated / branched devices</li> </ul>			
88. Endovascular Surgery: Thoracic Aorta <ul style="list-style-type: none"> <li>•Endovascular repair of thoracic aorta (TEVAR) for thoracic / thoraco-abdominal aneurysms and dissections</li> <li>•TEVAR with fenestrated or branched devices</li> </ul>			
89. Endovascular Surgery: Cerebrovascular <ul style="list-style-type: none"> <li>•Carotid angioplasty and stenting</li> </ul>			

General Surgery		No. of Procedures Performed	Privileges Applied by Applicant	Privileges Granted by CUHKMC
	•Vertebral artery stenting			
90.	Vascular Access / Dialysis Procedures •AV fistula creation / revision •AV Grafts for dialysis •Central venous catheter insertion			
91.	Endovenous Interventions: Basic •Procedures for varicose veins other than ligation / stripping and injection sclerotherapy •Radiofrequency ablation •Mechanical / chemical ablation •Endovenous glue therapy •High intensity focused ultrasound ablation			
92.	Endovenous Interventions: Complex •Inferior vena cava filter insertion •Superior vena cava angioplasty and stenting •Lower limb venous thrombectomy and stenting •Upper limb venous thrombectomy and stenting •Venous thrombolysis			
	<b>Endoscopic Procedures</b>			
93.	Sigmoidoscopy			
94.	Oesophagogastroduodenoscopy (OGD) – Diagnostic			
95.	Oesophagogastroduodenoscopy (OGD) – Haemostasis & Polypectomy			
96.	Colonoscopy – Diagnostic			
97.	Colonoscopy – Haemostasis & Polypectomy			
98.	Endoscopic Retrograde Cholangiopancreatography (ERCP)			
99.	Endoscopic Mucosal Resection (EMR)			
100.	Endoscopic Submucosal Dissection (ESD)			
101.	Self-expandable metal stent (SEMS) placement in the GI tract			
102.	Percutaneous endoscopic gastrostomy (PEG)			
103.	Insertion of bioenteric intragastric balloon			
104.	Esophageal dilation by simple balloon or bougie			
105.	Peroral Endoscopic Myotomy (POEM)			
106.	Ambulatory esophageal pH testing & esophageal motility			
107.	Anti-reflux procedure			
108.	Balloon assisted enteroscopy			
109.	Capsule Endoscopy			
110.	Endoscopic Ultrasound (EUS) – Diagnostic including FNA			
111.	Endoscopic Ultrasound assisted biliary/pseudocyst/abscess drainage			
112.	Fibreoptic bronchoscopy and bronchoalveolar lavage
